LinkedIn: linkedin.com/in/tun-tauk | GitHub: github.com/tuntauk
Portfolio: tt.ideafresh.dev

Professional Summary

Full Stack Software Engineer with 3+ years of full-time experience and freelance work since 2019. Builds Next.js, React, TypeScript, and Laravel applications across frontend, APIs, authentication, and database integration. Provides technical guidance and code reviews, with Docker/GitHub Actions deployment experience across e-commerce, data visualization, and business systems.

Skills

Languages: TypeScript, JavaScript, PHP, Python

Frontend: Next.js, React, Tailwind CSS, shadcn/ui, Astro

Backend & APIs: Node.js, Laravel, Express.js, NestJS, tRPC, REST APIs

Databases & ORM: MySQL, MongoDB, SQLite, Firebase, Prisma

Authentication & Localization: NextAuth.js, next-intl

Cloud & DevOps: AWS (EC2, ECS, SES), DigitalOcean, Docker, GitHub Actions, CI/CD, Dokploy

Tools & Testing: Git, Jest, Swagger/OpenAPI, Figma

Professional Experience

Full Stack Software Engineer | One Terrace | Tokyo, Japan (Remote)

Mar 2023 - Present | Full-time

- Built CI/CD pipelines with GitHub Actions and managed Docker deployments to AWS EC2/ECS.
- Designed database schemas, REST APIs, and role-based admin systems.

ZicoLog 2 | Next.js, React, TypeScript | data.zicolog.com

- Built frontend features, handled backend data preparation, processing, and integration, and reviewed teammates' code for a traffic accident visualization application.

Traffic Accident Map | Laravel, PHP, TypeScript | archive.zicolog.com (Archived)

- Independently developed a traffic accident data visualization application.

Koyou Assess | Laravel, React, MySQL | koyouassess.jp

- Built internal and customer-facing applications for foreign worker employment compliance assessments.

Full Stack Engineer | Ideafresh | Freelance

2019 - Present | Remote

- Set up collaborative Next.js projects, provided technical guidance and code reviews, and automated Docker deployments with GitHub Actions and Dokploy.

Myanmar Trader Care | Next.js, TypeScript, tRPC, Prisma, MySQL | myanmartradercare.com

- Co-developed an English/Myanmar broker and education platform; built public pages and tRPC/Prisma backend integrations.
- Implemented registration, login integration, password recovery, localization, AWS SES notifications, and technical SEO; a teammate built much of the admin console and initial database schema.

Suitup 777 | Next.js, TypeScript, tRPC, Prisma, MySQL | suitup.archive.ideafresh.dev (Archived Demo)

- Co-developed a tailoring platform from a v0 scaffold; built a six-step ordering workflow, persistent draft APIs, guest-to-account handoff, and order-access checks.
- Implemented authentication, role guards, catalog integration, and AWS SES emails; a teammate built much of the admin and customer-management functionality.

Professional Experience (continued)

Full Stack Engineer | Ideafresh | Freelance (continued)

2019 - Present | Remote

Kyaw Distribution POS | React, TypeScript, Node.js, Express, MongoDB, Capacitor

- Independently built the web application, APIs, and Android sales app for invoices, purchasing, inventory, credit payments, and reporting with role-based access.
- Integrated Bluetooth invoice printing, LAN access, and multi-instance deployment with Docker/GitHub Actions automation.

CrossFit - Gym Management & E-commerce | React, TypeScript, Express, Laravel, MySQL | crossfitmm.net (Storefront)

- Independently built the React/Express/MySQL gym app from 2022: memberships, attendance, RFID check-in, lockers, inventory, and reporting.
- Took over another developer's Laravel storefront in 2025 and fixed defects to make it launch-ready.
- Sole developer of the ongoing Next.js/TypeScript/Prisma storefront migration, including admin, cart, checkout, and inventory workflows.

Frontend Developer | AGB Communication Co., Ltd. | Yangon, Myanmar

Oct 2021 - Dec 2021 | Contract

- Built a responsive React billing admin panel and designed mobile billing flows in Figma using Material Design 2.

Backend & Android Intern | Werkz Technologies | Yangon, Myanmar

Oct 2020 - Dec 2020 | Internship

- Built a Node.js/Express/MongoDB notes API with Swagger documentation and Jest tests; migrated Classwerkz Android screens from Java to Kotlin.

Education

Bachelor of Computer Science | Rangsit University, Bangkok, Thailand | Jun 2024 - Dec 2026 (Expected)

Undergraduate Studies in Knowledge Engineering (Degree not completed) | University of Computer Studies, Mandalay, Myanmar | Dec 2015 - Apr 2020

Awards

- **2x 19th Place, ICPC** — International Collegiate Programming Contest, 2017 & 2018
- **2x 3rd Prize, MCPC** — Myanmar Collegiate Programming Contest, 2018 & 2019
- **2nd Place Qualifier** — Samsung Tech Institute: Mobile App Training, 2017
- **TFSCALE Participant** — Temasek Foundation Specialists' Exchange, Singapore & Myanmar, 2019
